ARTICLE 1. GENERAL

Section 300. Purpose and Scope

The purpose of these Infill Infrastructure Grant Program of 2019 Guidelines (Guidelines) is to implement and interpret Assembly Bill 101 (Chapter 159, Statutes of 2019) and Part 12.5 (commencing with section 53559) of Division 31 of the Health and Safety Code, which establishes the Infill Infrastructure Grant Program of 2019, hereinafter referred to as the Infill Infrastructure Grant Program (IIG or Program).

Section 301. Program Overview

The Program's primary objective is to promote infill housing development. The Program seeks to accomplish this objective by providing financial assistance for infrastructure improvements necessary to facilitate new infill housing development.

Under the program, grants are available as gap funding for infrastructure improvements necessary for specific residential or mixed-use infill development projects or areas. Both infill projects and areas must have either been previously developed or be largely surrounded by development. Eligible improvements include development or reconstruction of Parks or Open Space, water, sewer or other utility service improvements, streets, roads, parking structures, transit linkages, transit shelters, traffic mitigation features, sidewalks, and streetscape improvements.

Section 302. Definitions

The following definitions apply to the capitalized terms used in these Guidelines:

- (a) "Affordable Unit" means a unit that is made available at an affordable rent, as defined in Health and Safety Code section 50053, to a household earning no more than 60 percent of the Area Median Income or at an affordable housing cost, as defined in Health and Safety Code section 50052.5, to a household earning no more than 120 percent of the Area Median Income. Rental units shall be subject to a recorded covenant ensuring affordability for a duration of at least 55 years. Ownership units shall initially be sold to and occupied by a qualified household, and shall be subject to a recorded covenant that includes either a resale restriction for at least 30 years or equity sharing upon resale.
- (b) "Area Median Income" means the most recent applicable county median family income published by the California Tax Credit Allocation Committee (TCAC).
- (c) "Bus Hub" means an intersection of three or more bus routes, where one route or a combination of routes has a minimum scheduled headway of 10 minutes or at least six buses per hour during peak hours. Peak hours means the time between 7 a.m. to 10 a.m., inclusive, and 3 p.m. to 7 p.m., inclusive, Monday through Friday or the alternative peak hours designated for the transportation corridor by the transit

agency.

- (d) "Bus Transfer Station" means an arrival, departure, or transfer point for the area's intercity, intraregional, or interregional bus service having a permanent investment in multiple bus docking facilities, ticketing services, and passenger shelters.
- (e) "Capital Asset" means a tangible physical property with an expected useful life of 15 years or more. "Capital Asset" also means a tangible physical property with an expected useful life of 10 to15 years for costs not to exceed 10 percent of the Program grant. "Capital Asset" includes major maintenance, reconstruction, demolition for purposes of reconstruction of facilities, and retrofitting work that is ordinarily done no more often than once every 5 to 15 years or expenditures that continue or enhance the useful life of the Capital Asset. "Capital Asset" also includes equipment with an expected useful life of two years or more. Costs allowable under this definition include costs incidentally but directly related to construction or acquisition, including, but not limited to, planning, engineering, construction management, architectural, and other design work, environmental impact reports and assessments, required mitigation expenses, appraisals, legal expenses, site acquisitions, and necessary easements.
- (f) "Capital Improvement Project" or "Project" means the construction, rehabilitation, demolition, relocation, preservation, acquisition, or other physical improvement of a Capital Asset that is an integral part of, or necessary to facilitate the development of, a Qualifying Infill Project or Qualifying Infill Area. Combined rental and ownership developments

Applications designating both rental and ownership units will be awarded points on the funding commitments for the combined development cost of the Capital Improvement Project and the Qualifying Infill Project on a percentage basis in proportion to the number of rental and ownership units. For example, in a 100 unit development consisting of 80 rental units and 20 ownership units, the number of points will be weighted 80 percent for the funding commitments associated with the rental units and 20 percent for the funding commitments associated with the ownership units, then the respective scores for each component will be combined, not to exceed 20 points.

- (B) Allowable Program funds and 4 percent low-income housing tax credit equity contributions (without the necessity of a tax credit reservation letter) will be considered committed in this calculation. A Land Donation in fee for no other consideration that is supported by an appraisal or purchase/sale agreement ("Land Donation") or a Local Fee Waiver resulting in quantifiable cost savings for the Project where those fees are not otherwise required by federal or state law ("Local Fee Waiver") may be considered a funding commitment. The value of the Land Donation will be the greater of either the original purchase price or the current appraised value as supported by an independent third-party appraisal prepared by a qualified appraiser who is a Member of the Appraisal Institute (MAI) conducted within one year of the application deadline. A funding commitment in the form of a Local Fee Waiver must be supported by written documentation from the local public agency. Funds conditionally reserved under the following programs shall be accepted as funding commitments: the United States Department of Housing and Urban Development's (HUD) Continuum of Care (CoC). Home Investment Partnerships Program (HOME), and the Community Development Block Grant Program (CDBG). Deferred-payment financing, grant funds and subsidies from other Department programs proposed for Project financing must be awarded for Large Jurisdictions prior to final rating and ranking for the IIG application or prior to application submission for a Small Jurisdiction.
- (C) For self-help homeownership developments utilizing United States Department of Agriculture (USDA) 502 Loans, those funds shall be considered committed if the Eligible Applicant is an active 523 grantee that has Site Control of the Capital Improvement Project and a letter of support from USDA.
- (D) Owner equity contributions or Developer funds shall not be substituted later with a different funding source or forgone if committed in the application, except that a substitution may be made for up to 50 percent of deferred developer fee. The Department may require the Eligible Applicant to evidence the availability of the proposed amount of owner equity or developer funds.
- (4) Local Support 12 points maximum
 - (A) Points will be awarded for one of the following:

- (i) Obtaining a funding commitment or commitments from a local public agency or agencies for the Qualifying Infill Project or Capital Improvement Project equivalent to at least 25 percent of the Program grant will be awarded 12 points.

 - (ii) A Land Donation or a Local Fee Waiver may be considered a commitment of Local Support. The value of the Land Donation will be the greater of either the original purchase price or the current appraised value as supported by an independent third-party appraisal prepared by a qualified appraiser who is a Member of the Appraisal Institute (MAI) conducted within one year of the application deadline. A commitment of Local Support in the form of a Local Fee Waiver must be evidenced by written documentation from the local public agency.

Applications designating ownership units, or a combination of rental and ownership units, must utilize the scale set forth in paragraph 2 below.

- (1) The scale used by MHP, as specified in the Multifamily Housing Program Guidelines section 7320(b)(1). Eligible Applicants making this election shall be awarded 60/35 points for every 1 point they would be eligible to receive using MHP's system (applications eligible for the maximum possible 35 points using the MHP scale receive the maximum possible points in this category for the Program).
- (2) The following scale:
 - (A) .30 points will be awarded for each percent of total units that are owner-occupied and restricted to occupancy by households with incomes not exceeding the Moderate-Income limit.
 - (B) .80 points will be awarded for each percent of total units that are owner-occupied and restricted to occupancy by households with incomes not exceeding the Lower Income limit.
 - (C) .40 points will be awarded for each percent of total units that are rental units restricted to occupancy by households with incomes not exceeding 50 percent of Area Median Income.
 - (D) 2.0 points will be awarded for each percent of total units that are rental units restricted to occupancy by households with incomes less than or equal to 30 percent of Area Median Income, or that are or will be covered by a long-term, project-based rental or operating subsidy contract under a program that either has a history of predominately serving households at this income level or that by design will reliably serve this population.

28

(3) Owner-occupied units shall be subject to a recorded covenant with a duration of at least 30 years that includes either a resale restriction or a requirement for sharing equity upon resale.

Department of Housing and Community Development

(4) For rental units used as the basis for point scores in the application, rent limits for initial occupancy and for each subsequent occupancy shall be based on unit type, applicable income limit, and area in which the Qualifying Infill Project is located, following the calculation procedures used by TCAC. Rents shall be restricted in accordance with the rent and income limits specified in the application and approved by the Department and set forth in a legally binding agreement recorded against the Qualifying Infill Project with a duration of at least 55 years. Rents shall not exceed 30 percent of the applicable income eligibility level.

(c) Density – 40 points maximum

Applications will be scored based on the extent to which the average Net Density of the Qualifying Infill Project, adjusted by unit size, exceeds the required density specified in Section 303(c)(5). Net Density calculations shall be evidenced by a date stamped map certified by a licensed State of California professional such as an architect, engineer, or surveyor.

(1) Net density will be adjusted by unit size (and commercial space as applicable) as follows:

Example = Mixed-use project, three-quarter $(\frac{3}{4})$ acre, urban site, with twelve 1-bedroom units at 800 sq. ft. each, twelve 2-bedroom units at 1,100 sq. ft. each, and 5,000 sq. ft. of commercial space.

Department of Housing and Community Development 29 IIG Program Guidelines

Based on the density factors in the chart below, the equation looks like this:

 12×0.9 (1 bedroom units) = 10.8 12×1.2 (2 bedroom units) = 14.4

To attribute density to the commercial space, utilize the square footage and bedroom count of the largest unit in the project to determine how many whole units would fit into the square footage of the commercial space.

For this example, the largest unit is a 2-bedroom, 1,100 square foot unit. 5,000 square feet (commercial space) would accommodate four (4) of these units. Multiply that result by the appropriate factor:

 4×1.2 (2-bedroom units) = 4.8

To calculate the percentage at which this project meets or exceeds the required density, add all three resulting calculations above, and divide by the minimum density required for the project site (in this case 30 units/acre for an urban site), then by the number of acres in the project, then multiply by 100 (for percentage):

 $(10.8+14.4+4.8)/30 = 1/.75=1.3333 \times 100=133.33\%$

Unit Size	Factor
(Bedrooms)	
0-Bedroom	0.7
1-Bedroom	0.9
2-Bedroom	1.2
3-Bedroom	1.6
4-Bedroom	1.8

(2) Points will be awarded in accordance with the following schedule:

30

Adjusted Net	Points

(1) Net Density will be adjusted for unit size by multiplying the factors shown below by the total number of units in each unit size category, then summing the resulting products then dividing by the net area of all projects. Net Density calculations shall be evidenced by a date stamped map certified by a licensed State of California professional such as an architect, engineer, or surveyor. For a suburban three-site Qualifying Infill Area:

Project # 1	7 2-Bedroom Units	5 3-Bedroom Units	.75 Acre
Project # 2	6 2-Bedroom Units	8 3-Bedroom Units	.65 Acre
Project # 3	9 2-Bedroom Units	7 3-Bedroom Units	.50 Acre

The adjusted Net Density would be 22 two-bedroom units times 1.2 plus 20 three-bedroom units times 1.6) or 58.4. Dividing this by 20 (suburban Minimum Density) and 1.9 acres (net area of the 3 sites) and multiplied by 100 results in an adjusted Net Density as a Percentage of Required Density of 153.7 percent which yields 15 points for Density.

Unit Size	Factor
(Bedrooms)	
0-Bedroom	0.7
1-Bedroom	0.9
2-Bedroom	1.2
3-Bedroom	1.6
4-Bedroom	1.8

(2)

Points will be awarded in accordance with the following schedule:

Department of Housing and Community Development

40

Adjusted Net Density as	Points
a Percentage of	
Required Density	
200% or more	40
175% to 199.9%	30
150% to 174.9%	20
125% to 149.9%	15
110% to 124.9%	10
Less than 110%	0

(d) Access to Transit – 20 points maximum

Points will be awarded based on the percentage of residential units in the Qualifying Infill Area which are in developments which meet the criteria for proximity to a Transit Station or Major Transit Stop set forth in paragraph 309(d) relative to the total number of housing units in the Qualifying Infill Area. Two (2) points will be awarded for each 10 percent of such housing units. Percentages shall be rounded off to the nearest whole tenth.

(e) Proximity to Amenities – 20 points maximum

Applications will be awarded points based on the amenities in the Qualifying Infill Area or within one-half mile of its boundary, including amenities that will be in service when construction of the Qualifying Infill Project for the Qualifying Infill Area is completed.

The one-half mile radius will be measured from the established boundaries of the Qualifying Infill Area, as defined in local planning documents.

Points shall be awarded per amenity as follows:

Amenities serving Qualifying Infill Areas consisting of fewer than 200 residential units will yield 4 points each. Amenities serving Qualifying Infill Areas consisting of 200 or more residential units will yield 2 points each. Each distinct amenity may be counted only once. The Eligible Applicant shall designate the specific subcategory for each amenity identified. No more than 25 percent of a Qualifying Infill Area's amenities may be from any one subcategory. Applications may receive only one award of points from each of the following categories. Total points for this category may not exceed 20 points.

- (1) Amenities include:

Code, 1720 et seq.), an IIG Capital Improvement Project (i.e., the construction, rehabilitation, demolition, relocation, preservation, acquisition, or other physical improvement of a Capital Asset) shall be considered a public work that is paid for in whole or in part out of public funds. As such, it is subject to California's prevailing wage law. Program funding of a Capital Improvement Project shall not necessarily, in and of itself, be considered public funding of a Qualifying Infill Project or the Qualifying Infill Area unless such funding is considered public funding under California's prevailing wage law.

It is not the intent of the Department in these Guidelines to subject Qualifying Infill Projects or Qualifying Infill Areas to California's prevailing wage law by reason of Program funding of

the Capital Improvement Project where such public funding would not otherwise make the Qualifying Infill Project or Qualifying Infill Area subject to such law.

Although the use of Program funds does not require compliance with the federal Davis-Bacon Act, other funding sources may require compliance with the federal Davis-Bacon Act.

Not Applicable

E. Threshold

To be considered for program funding, applications for Large Jurisdictions must include a Qualifying Infill Project, including those Qualifying Infill Projects used to establish the eligibility of a Qualifying Infill Area. In addition, all applications must meet all the threshold requirements set forth in Section 308.

F. Rating and Ranking

Qualifying Infill Project applications shall be rated based on the criteria set forth in Section 309 of the Guidelines.

In order to be considered for funding, project applications must receive a minimum score of 210, excluding bonus points. Applications must contain a completed IIG Self-Scoring Worksheet along with documentation acceptable to the Department that adequately supports the Self-Score provided. **Applications that do not include a Self-Scoring Worksheet will not be considered for funding.** Self-Scoring Worksheets must be included within the application at the time of submittal to the Department. No additional information may be added to an application after it has been submitted.

The highest scoring applications that meet all threshold requirements will be selected for funding in this NOFA. Applications will be funded in descending order. The Department may make adjustments to this procedure to meet the following geographic distribution objectives:

- 1. Target 45 percent of total funds to projects located in Southern California (Kern, Los Angeles, Orange, Riverside, Santa Barbara, San Bernardino, San Diego, San Luis Obispo, or Ventura counties);
- 2. Target 10 percent of total funds to projects located in the Central Valley (Fresno, Merced, San Joaquin, Stanislaus and Tulare counties); and
- Target 45 percent of total funds to projects located in Northern California [those not located in the Large Jurisdiction counties specified in previous paragraphs (1) and (2)].

In the event two or more applications have the same rating and ranking score, the following tiebreaking points will be awarded, in the following order of priority, until there is no longer a tie:

- 1. Ten bonus points will be awarded to the Qualifying Infill Project or Qualifying Infill Area having the lowest ratio between the requested grant amount to the total allowable maximum grant amount in accordance with the maximum calculated through the respective program Guidelines. All such ratios will be rounded to the nearest second decimal point.
- 2. An additional three bonus points will be awarded to the Qualifying Infill Project or Qualifying Infill Area for each prior awarded Qualifying Infill Project developed by the Eligible Applicant that has received a certificate of occupancy by the deadline for submittal of applications set forth in this NOFA.

Pursuant to Section 305(e) of the Guidelines, the Eligible Applicant must provide documentary evidence that the Qualifying Infill Project or the housing to be developed in the Qualifying Infill Area, as proposed in the application, is financially feasible.

Pursuant to Section 305(d) of the Guidelines, the Eligible Applicant must demonstrate that program funds are reasonably necessary for project feasibility and that no other source of funding is reasonably available.

The Department administers the competitive application process pursuant to this NOFA and will make the program award determinations.

G. State and Federal Requirements

1. Compliance with California's Housing Element Law

The Qualifying Infill Project or Qualifying Infill Area must be located in a Locality which has an adopted Housing Element that has been found by the Department to be in substantial compliance with the requirements of Article 10.6 (commencing with Section 65580) of Chapter 3 of Division 1 of Title 7 of the Government Code. Housing Element compliance must be established as of the NOFA application deadline date.

2. Climate Adaptation

Executive Order B-30-15 addressed the need for climate adaptation and ordered that:

- a. All state agencies with jurisdiction over sources of greenhouse gas emissions shall implement measures, pursuant to statutory authority, to achieve reductions of greenhouse gas emissions to meet the 2030 and 2050 greenhouse gas emissions reductions targets.
- b. State agencies shall take climate change into account in their planning and investment decisions and employ full life-cycle cost accounting to evaluate and compare infrastructure investments and alternatives.
- c. State agencies' planning and investment shall be guided by the following principles:
 - (1) Priority should be given to actions that both build climate preparedness and reduce greenhouse gas emissions;
 - (2) Where possible, flexible and adaptive approaches should be taken to prepare for uncertain climate impacts;
 - (3) Actions should protect the state's most vulnerable populations; and
 - (4) Natural infrastructure solutions should be prioritized.

In response to the Governor's Executive Order, the Department strongly encourages Recipients to use the program funds in a manner that responsibly takes climate change into account.
