RE Proposed street vacation of portions of right-of-way fronting AB 3719 Lot 019, also being 301 Mission St.

The Office of the City and County Surveyor has received a request to investigate the possibility of vacating portions of Fremont Street and Mission Street, fronting Assessor's Blocks 3719 Lot 019. The attached draft plat shows the areas to be vacated in more detail.

The proposed vacations are associated with building permit applications to upgrade the building located at 301 Mission St, also known as the Millennium Tower. The structural upgrade will involve the installation of approximately 52 piles underneath a portion of the sidewalk areas on Fremont and Mission Streets. The piles are expected to be approximately 24 inches in diameter and will extend to bedrock.

Please inform us whether or not you have any objections or comments to this proposal within 30 days. In the event that you must refer the documents to a public hearing, or a departmental committee, please notify us with the date and time of the scheduled hearing.

Should you have any objections, please state them in writing and include any pertinent maps or other documentation. If you have no objections, please state so by return letter or email.

Your prompt response to this request is appreciated. If you have any question please contact Javier.Rivera@sfdpw.org

Sincerely,

Javier Rivera

Javier Rivera, P.E.
Associate Engineer & Project Manager Assistant
