**LEGISLATIVE DIGEST**

Revised 06/29/20

[Charter Amendment - Sanitation and Streets Department, Sanitation and Streets Commission, and Public Works Commission]

**Describing and setting forth a proposal to the voters at an election to be held on November 3, 2020, to amend the Charter of the City and County of San Francisco to create the Sanitation and Streets Department to succeed to specific duties currently performed by the Department of Public Works; to create a Sanitation and Streets Commission to oversee the Sanitation and Streets Department; to create a Public Works Commission to oversee the Department of Public Works; to require an annual performance audit and cost and waste analysis for both departments; and affirming the Planning Department's determination under the California Environmental Quality Act.**

Existing Law

Under the Charter, the Department of Public Works' responsibilities are determined by the City Administrator and include the responsibility for maintaining and cleaning the public right of way.

Charter section 4.102 provides that a commission of the executive branch has the responsibility to formulate, evaluate and approve goals, set policies, develop Annual Statements of Purpose for the departments under its jurisdiction, and approve departmental budgets.

Charter section F1.102 provides that the City Auditor shall develop quantifiable, measurable, objective standards for street, sidewalk, and park maintenance in consultation with the Department of Public Works.

Amendments to Current Law

This Charter amendment would remove the Department of Public Works from the purview of the City Administrator. The amendment would create a new Public Works Commission which would have oversight over the Department of Public Works. At the same time, the responsibilities for cleaning and maintaining the public right of way, and certain other responsibilities such as the maintenance of street trees in the public right of way would be transferred to a newly created Department of Sanitation and Streets. The new Department would also be responsible for maintaining City buildings. The amendment would also create a Sanitation and Streets Commission which would have oversight responsibilities over the new Department of Sanitation and Streets. The new Department and Commission would have a focus on street cleaning, including measurement of the City's performance using objective metrics. Street cleaning would include the deep cleaning of sidewalks using methods such as

FILE NO. 200510

power washing. The Charter amendment would also require the Controller's office to complete an annual performance audit and cost and waste analysis for both departments.

RE: File 200510 – Charter amendment to create a Public Works Commission to oversee the Department of Public Works and to create the Sanitation and Streets Department to create a Sanitation and Streets Commission to oversee the new Sanitation and Streets Department

Dear Ms. Calvillo,

Should the proposed Charter amendment be approved by the voters, in my opinion, it would have a significant impact on the cost of government, ranging from \$4 million to \$10 million annually beginning September 2021 depending on future implementation decisions. Possible amendments to the proposed Charter amendment would affect the ultimate costing analysis.

The proposed Charter amendment would create a new Sanitation and Streets Department to perform specific duties currently performed by the Department of Public Works. The amendment would shift approximately 835 of 1,711 full-time equivalent employees currently working for Public Works to the new Sanitation and Streets Department.

Decoupling shared administrative services would necessitate a 10-25 percent increase in staffing for these functions for the loss of efficiency with shared services. These new positions would include adding managers and staff for information technology and systems, finance and budgeting, human resources, safety, training, and communications functions, as well as a new department head and support staff. Other ongoing and one-time costs for splitting shared services would include office space, technology infrastructure and systems, public-facing websites redesign and re-branding of Public Works vehicles.

The amendment would also create two new five-member commissions: one to oversee the existing Department of Public Works and one to oversee the new Sanitation and Streets Department. Costs would include commission secretary, commissioner compensation, and costs such as preparing public materials.

Sincerely,

*Natasha Mihal*

RE: **Amended Meeting Notice for Proposed Charter Amendment – Public Works Commission, Sanitation and Streets Commission, and Sanitation and Streets Department (BOS File No: 200510)**

---

Dear Labor Colleagues,

On May 19, 2020 Supervisor Matt Haney introduced a proposed Charter Amendment to create a Public Works Commission with oversight over the Department of Public Works; and, the creation of a Sanitation and Streets Department with oversight by a new Sanitation and Streets Commission to be placed on the November 3, 2020 ballot. Copies of the proposed Charter Amendment and its accompanying digest are enclosed, and more information can be found at the link below:

<https://sfgov.legistar.com/View.ashx?M=F&ID=8450376&GUID=2F0F97FC-5290-45E2-BE7F-967BA0BBD0F8>

This Charter amendment would remove the Department of Public Works from the purview of the City Administrator. The amendment would create a new Public Works Commission which would have oversight over the Department of Public Works. At the same time, the responsibilities for cleaning and maintaining the public right of way, and certain other responsibilities such as the maintenance of street trees in the public right of way would be transferred to a newly created Department of Sanitation and Streets. The new Department would also be responsible for maintaining City buildings. The amendment would also create a Sanitation and Streets Commission which would have oversight responsibilities over the new Department of Sanitation and Streets. The new Department and Commission would have a focus on street cleaning, including measurement of the City's performance using objective metrics.

The City is providing this notice and an opportunity to meet and confer on the proposed Charter Amendment. Due to the COVID-19 pandemic and public health orders, including the shelter-in-place orders, the City offers to meet remotely, by videoconference. The City is available on **June 10, 2020 from 3:30-5:00pm** to initiate this process. The Employee Relations Division will send an invitation for the meeting.

Dear Honorable Supervisors,

My name is Almudena and I have been working for the SF Rec and park Department for 12 years. I love our City and the Citizens we serve. It is beyond disappointing to see San Francisco in the headlines of international newspapers because of the conditions of our streets, but it is even more disappointing to see that our city's leadership has been engaging in serious fraud and corruption and that the FBI is involved. The workers have struggled under years of corruption and now must live with the stigma it has created. They filed complaints and whistleblowers for years which never resulted in change and many times made them a target. Our system is broken! We know that there is no real oversight of the Department of Public Works. Unlike other departments there is no system of accountability to an independent commission or anyone really watching the shop. We desperately need a Commission that can make sure that proper standards are being met and that the workers voices are being heard.

That is why I am writing in support of Matt Haney's charter amendment to finally put some common sense cleaning laws on the books and to provide what is clearly some much needed oversight to one of our city's most mismanaged departments. I urge you, to please vote in support of this legislation! Please support this charter amendment and help us!

I urge you to please vote in support of this legislation.

Thank you.

Sincerely,  
Almudena Martin

Dear Honorable Supervisors,

My name is Matt Swagler and I have been working for the SF Rec and Park for 3 years. I understand that the budget is tight, but I think that Haney's proposal to split public works and establish oversight is the only way to ensure accountability. The status quo hasn't been working and it's going to take a lot of work to turn it around. Clearly the current amount of oversight hasn't been enough to discourage corruption. I take pride in my work and serving the city. Our workers deserve to take pride in the organization they represent. Our residents deserve to take pride in the services they are paying for. We are losing tourism in a major way because of the state of the streets. The committee will pay for itself with the amount of money it redirects to the right place. Thanks for your time.

RE: 200510: CHARTER AMENDMENT - PUBLIC WORKS COMMISSION, SANITATION  
AND STREETS COMMISSION, AND SANITATION AND STREETS DEPARTMENT

Dear Supervisors:

I am writing on behalf of the Bayanihan Equity Center (BEC) to convey my support for Sup. Haney's Charter Amendment which will create a Department of Sanitations and Streets.

BEC has been serving the community for over 20 years. The center is located in the heart of the South of Market at the corner of 6<sup>th</sup> and Mission Streets. Over the years, the filth in the SoMa neighborhood has gotten worse. The human waste, used needles and trash on the sidewalks and streets has become a public health issue especially during these times when residents and workers have heightened fears about the spread of infectious disease. The condition of the sidewalks and streets are especially problematic during BEC's food distribution days. Forcing our pantry participants to line up for food in the midst of trash and human waste is demoralizing.

Sup. Haney's proposal will make a huge impact on the quality of life for San Francisco residents and workers alike. The Department of Sanitations and Streets will ensure that streets and sidewalks are cleaned, trash cans are available, and public bathrooms are accessible for the community.

I strongly encourage the members of the San Francisco Board of Supervisors to consider the creation of the Department of Sanitations and Streets for a clean and safe city.

Very truly yours,
