Hello,

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation.

Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you.

Greetings Mayor Breed and Board of Supervisors

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the conditions of our streets and to create a much needed oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation. A fact that both astounds me and that makes so much sense considering the condition our city has been in.

With us on the beginning of a statewide second wave of COVID-19 and increasing concerns about the spread of infectious disease, creating a new Department of Sanitation and Streets is necessary now more than ever and is just plain good old common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Hi, Victor, are you receiving these when they go to <u>bos-supervisors@sfgov.org</u>? Is there a best way to get them to the public record?
