

## **LEGISLATIVE DIGEST**

[Administrative Code - Workforce Education and Recovery Fund]

### **Ordinance amending the Administrative Code to establish the Workforce Education and Recovery Fund.**

#### **Existing Law**

In 2016, by ordinance, the City established the San Francisco City College Financial Assistance Fund as a category four fund to provide financial assistance to students at City College of San Francisco (“City College”). The ordinance further provided that the Department of Children, Youth, and Their Families (“DCYF”) would administer the fund and use monies in the fund to make grants to reimburse City College for enrollment fees and other education-related financial support for students.

#### **Amendments to Current Law**

This ordinance would establish the Workforce Education and Recovery Fund (“the Fund”) as a category four fund to provide financial support to City College for workforce and professional development programs; student support and wrap around services supporting student retention; and social justice, equity, lifelong learning, and enrichment classes. This ordinance would require DCYF to administer the Fund and to use the monies as follows:

- (1) one-half of the monies in the Fund to support City College workforce and professional development programs;
- (2) one-quarter of the monies to support student support services, classified staff support, classified professional development, and to support disadvantaged students; and
- (3) one-quarter of the monies to support social justice, equity, lifelong learning, and enrichment classes.

This ordinance would require that City College submit an annual expenditure plan to DCYF, the Mayor, and the Board of Supervisors.

This ordinance would require that the Controller select an independent auditor to audit City College’s use of monies in the Fund and prepare an annual audit report for the Mayor and Board of Supervisors.
