Paycheck Protection Program and Health Care Enhancement Act, 2020 (P.L. 116-139)

Dear Dr. Tomas Aragon:

This letter covers the reimbursement for the Paycheck Protection Program and Health Care Enhancement Act Response Activities for Cross-Cutting Emerging Issues. Funding for these activities is covered for the period May 18, 2020 to November 17, 2022. The California Department of Public Health (CDPH) is allocating \$6,540,700 to City & County of San Francisco. These funds are intended to provide critical resources to local health departments (LHD) in support of a broad range of COVID-19/SARS-CoV-2 testing and epidemiologic surveillance related activities, including the establishment of modernized public health surveillance systems. The work supported by ELC Enhancing Detection expands upon previous COVID-19 awards (ELC CARES and ELC Community-based Surveillance). These funds will support the public health response to COVID-19 and lay the foundation for the future of public health surveillance.

This allocation spans six different strategies that collectively build upon current investments and better prepare California to address COVID-19 response needs over the next 24 months and allow the state to prioritize and target resources to those most vulnerable to the impacts of the disease. Below is a table which outlines each strategy and corresponding allocation for your Agency:

Strategy Str	Allocation

Funding:

The funding term is May 18, 2020 to November 17, 2022. CDPH plans to evaluate spending at the local level after a ten month period from the date of this letter. CDPH, in consultation with the California Conference of Local Health Officers and California Health Executives Association of California, will consider options for possible redirection of funds at that time.

Submission Requirements:

- 1. Complete a Workplan by **August 31, 2020** and submit to the California Department of Public Health at <u>CDPHELC@cdph.ca.gov</u>. See Attachment 1.
- Complete a Spend Plan by August 31, 2020 and submit to the California Department of Public Health at <u>CDPHELC@cdph.ca.gov</u>. See Attachment 2. Your Agency should consider the following when developing your Spend Plan:

- Staffing: You are encouraged to hire an Epidemiologist for Strategy 4; and a minimum 1 FTE Infection Preventionist for Strategy 6.
- Your Agency must work in coordination with tribal governments, community-based organizations, and faith-based organizations within Strategy 2 and 5, particularly those with experience with high-risk populations based upon county COVID-19 testing data. There is no explicit cap or percentage that must go to these partners; however, you must reach out to them and enlist their help where it makes sense (i.e. outreach, testing strategy, education, or housing, etc.). Such engagement must include a community meeting and the plan should include a list of community engagement participants.
- Your agency is encouraged to recruit and give hiring preference to unemployed workers, underemployed workers, and applicants from local communities disproportionately affected by COVID-19, who are qualified to perform the work. In addition, you are encouraged to work with applicants from your community when executing contracts and other services.

Reporting Requirements:

As a subrecipient of the COVID-19 ELC Enhancing Detection funding, the CDC requires submission of the following reporting documents to CDPH. Additionally, CDPH will require additional data metric reporting related to Strategy 5 (contact tracing and isolation and quarantine activities). For your convenience, your Contract Manager will issue reminders as these dates get closer.

- Submit quarterly progress reports on status of timelines, goals, and objectives in the approved work plan. Such report must include a list of tribal governments, community-based organizations, and faith-based organizations that the county has included in its efforts. See Attachment 1.
- 2. Submit quarterly expenditure reports following the dates listed in the table below. See Attachment 2.

Final	August 1, 2022 – November 17, 2022	December 15, 2022

3. Your Agency may be requested to report on performance measures as needed.

4. For Agencies not using the CalCONNECT Contact Tracing data management system comprehensively for all of their COVID-19 cases, there may be additional reporting required on a monthly basis related to Strategy 5 activities. CDPH will provide a template to use to facilitate the reporting of these additional data metrics.

Reimbursement/Invoicing:

CDPH will reimburse your Agency upon receipt of invoice. In order to receive your reimbursements, please complete and submit your invoices to: CDPHELC@cdph.ca.gov. See Attachment 3.

- First Quarter Payment: CDPH will issue warrants (checks) to your Agency for 25% of each Strategy which equates to 25% of your total allocation, this will be issued as an advance payment.
- 2. Future Payments: Future payments will be based on reimbursement of expenditures. In order to receive future payments, your Agency must complete and submit reporting documentation within Attachments 1 and 2 following the due dates in the table on the previous page.
- 3. Your Agency must maintain supporting documentation for any expenditures invoiced to CDPH against this source of funding. Documentation should be readily available in the event of an audit or upon request from your Contract Manager. Documentation should be maintained onsite for five years.

Thank you for the time your Agency has and will continue to invest in this response. We are hopeful that this additional funding can support the needs of your local health department and that it provides adequate resources for your participation in ELC Enhancing Detection. If you have any questions or need further clarification regarding this funding, please reach out to CDPHELC@cdph.ca.gov.

1. Terms and Conditions

AWARD INFORMATION

Incorporation: In addition to the federal laws, regulations, policies, and CDC General Terms and Conditions for Non-research awards at

https://www.cdc.gov/grants/federalregulationspolicies/index.html, the Centers for Disease Control and Prevention (CDC) hereby incorporates Notice of Funding Opportunity (NOFO) number CK19-1904, entitled Epidemiology and Laboratory Capacity (ELC), which is hereby made a part of this Non-research award, hereinafter referred to as the Notice of Award (NoA).

Component Funding: Additional funding in the amount \$499,203,180 is approved for the Year 01 budget period, which is August 1, 2019 through July 31, 2020

COVID-19 Paycheck Protection Program and Health Care Enhancement Act Response Activities:

E. Cross-Cutting Emerging Issues: \$499,203,180

Recipients have **30 months** from the date of this NoA to expend all funds awarded herein

Budget/Workplan Revision Requirement: Within 30 days of this NoA, the recipient must submit a revised budget with a narrative justification outlining response activities. Failure to submit the required information in a timely manner may adversely affect the future funding of the project. If the information cannot be provided by the due date, you are required to contact your ELC Project Officer and Grant Management Specialist. The revised budget must be uploaded in GrantSolutions as an amendment to allow issuance of a revised NoA.

Pre-Award Costs: Pre-award costs dating back to January 20, 2020 – when CDC first activated its Emergency Operations Center (EOC) – and directly related to the COVID-19 outbreak response are allowable.

Indirect Costs: Indirect cost will be approved based on current approved negotiated indirect cost rate agreement.

Overtime: Because overtime costs are a very likely and reasonable expense during the response to COVID-19, CDC will allow recipients to include projected overtime in their budgets. Recipients should be careful to estimate costs based on current real-time needs and will still be required to follow federal rules and regulations in accounting for the employees' time and effort.

Additional Term and Condition:

A recipient of a grant or cooperative agreement awarded by the Department of Health and Human Services (HHS) with funds made available under the Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (P.L. 116-123); the Coronavirus Aid, Relief, and Economic Security Act, 2020 (the "CARES Act") (P.L. 116-136); and/or the Paycheck Protection Program and Health Care Enhancement Act (P.L. 116-139) agrees, as applicable to the award, to: 1) comply with existing and/or future directives and guidance from the Secretary regarding control of the spread of COVID-19; 2) in consultation and coordination with HHS, provide, commensurate with the condition of the individual, COVID-19 patient care regardless of the individual's home jurisdiction and/or appropriate public health measures (e.g., social distancing, home isolation); and 3) assist the United States Government in the implementation and enforcement of federal orders related to quarantine and isolation.

In addition, to the extent applicable, Recipient will comply with Section 18115 of the CARES Act, with respect to the reporting to the HHS Secretary of results of tests intended to detect SARS—CoV—2 or to diagnose a possible case of COVID—19. Such reporting shall be in accordance with guidance and direction from HHS and/or CDC.

Further, consistent with the full scope of applicable grant regulations (45 C.F.R. 75.322), the

purpose of this award, and the underlying funding, the recipient is expected to provide to CDC copies of and/or access to COVID-19 data collected with these funds, including but not limited to data related to COVID-19 testing. CDC will specify in further guidance and directives what is encompassed by this requirement.

This award is contingent upon agreement by the recipient to comply with existing and future guidance from the HHS Secretary regarding control of the spread of COVID-19. In addition, recipient is expected to flow down these terms to any subaward, to the extent applicable to activities set out in such subaward.

Unallowable Costs:

- Research
- Clinical care
- Publicity and propaganda (lobbying):
 - Other than for normal and recognized executive-legislative relationships, no funds may be used for:
 - publicity or propaganda purposes, for the preparation, distribution, or use of any material designed to support or defeat the enactment of legislation before any legislative body
 - the salary or expenses of any grant or contract recipient, or agent acting for such recipient, related to any activity designed to influence the enactment of legislation, appropriations, regulation, administrative action, or Executive order proposed or pending before any legislative body
 - See Additional Requirement (AR) 12 for detailed guidance on this prohibition and additional guidance on lobbying for CDC recipients: https://www.cdc.gov/grants/documents/Anti-Lobbying_Restrictions_for_CDC_Grantees_July_2012.pdf
- All unallowable costs cited in CDC-RFA-CK19-1904 remain in effect, unless specifically amended in this guidance, in accordance with 45 CFR Part 75 – Uniform Administrative Requirements, Cost Principles, And Audit Requirements for HHS Awards.

Additional Reporting:

- Monthly fiscal reports (beginning 60 days after NOAs are issued)
- Quarterly progress reports on status of timelines, goals, and objectives as defined by CDC in approved work plans

Required Disclosures for Federal Awardee Performance and Integrity Information System (FAPIIS): Consistent with 45 CFR 75.113, applicants and recipients must disclose in a timely manner, in writing to the CDC, with a copy to the HHS Office of Inspector General (OIG), all information related to violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Implementation Plan (Bulleted items or brief sentences)	SFDPH will be transitioning to a new data system offered by the California Department of Public Health called CalConnect. We are in the process of developing our transition plan with staff from our case investigation, contact tracing, outbreak management, and data teams. The staff that will be hired for this milestone include one epidemiologist and project management consultant who will support the transition and change management.
Applicant capacity: What is the current capacity to perform this milestone?	We have many people throughout the activation who are involved with strengthening the surveillance and informatics work but not many staff that are focused on supporting the workforce.
