Local Health Jurisdiction Name:	City and County of San Francisco
Grant Number:	6 NU90TP922071-01-03

Activity 1: Establish or enhance ability to aggressively identify cases, conduct contact tracing and follow up, as well as implement recommended containment measures.

Activity 1 Actions and Deliverables

A. Enhanced contact tracing including contact elicitation/identification, contact notification, and contact follow-up. Activities could include traditional contact tracing methods as well as healthcare-specific and other proximity/location-based methods.

Activity 1: Establish or enhance ability to aggressively identify cases, conduct contact tracing and follow up, as well as implement recommended containment measures.											
Planned Activity (Provide a title for this milestone)	Expand Case Investigation and Contact Tracing Workforce										
Implementation Plan (Bulleted items or brief sentences)	San Francisco is estimated to need 132 CI/CT staff for its population of 880,000. We currently have 126 staff, we will add at least additional 6 staff and consider requesting staff from CDPH										
Applicant capacity: What is the current capacity to perform this milestone?	We are in the process of hiring additional contract staff for the SFDPH team, and will contract with CBOs to train and support community based staff to also do this work										
Expected Achieve By Date (select from drop down)	August 2020
