■ High

# Case Management Standards

- Individualized, Research Based and Targeted Case Management to address three principles: Risk, Need and Responsivity
- Every client is assessed with a validated assessment tool to determine their risk to reoffend and criminogenic needs
- Every client receives an Individual Treatment and Rehabilitation Plan (ITRP)
- Clients are supervised in the community based on their level of risk to reoffend

# Tracking Rearrests

- Booking Notification generated in JUSTIS
- Adult Probation's Case Management System
- Court Data
- Supervised Release File (SRF)
