ADOPTING FINDINGS RELATING TO A CONDITIONAL USE AUTHORIZATION PURSUANT TO PLANNING CODE SECTIONS 764 AND 303, TO ESTABLISH A BAR USE CONCURRENT WITH AN EXISTING CONDITIONALLY ESTABLISHED GENERAL ENTERTAINMENT USE (D.B.A. THE ACADEMY) ON THE BASEMENT AND FIRST FLOOR IN AN EXISTING TWO-STORY OVER BASEMENT COMMERCIAL BUILDING LOCATED IN THE UPPER MARKET NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT AND 40-X AND 50-X HEIGHT AND BULK DISTRICT, AND ADOPTING FINDINGS UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT.

## PREAMBLE

On August 4, 2020, Nate Bourg of The Academy (hereinafter "Project Sponsor") filed Application No. 2020-007075CUA (hereinafter "Application") with the Planning Department (hereinafter "Department") for a Conditional Use Authorization to establish a bar use concurrent with an existing conditionally established general entertainment use (hereinafter "Project") at 2166 Market Street, Block 3542 and Lot 016 (hereinafter "Project Site").

The Project is exempt from the California Environmental Quality Act ("CEQA") as a Class 1 Categorical Exemption.

On January 28, 2021, the San Francisco Planning Commission (hereinafter "Commission") conducted a duly noticed public hearing at a regularly scheduled meeting on Conditional Use Application No. 2020-007075CUA.

The Planning Department Commission Secretary is the Custodian of Records; the File for Record No. 2020-007075CUA is located at 49 South Van Ness Avenue, Suite 1400, San Francisco, California.

The Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of the applicant, Department staff, and other interested parties.

**MOVED**, that the Commission hereby authorizes the Conditional Use as requested in Application No. 2020-007075CUA, subject to the conditions contained in "EXHIBIT A" of this motion, based on the following findings:

## **FINDINGS**

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

- 1. The above recitals are accurate and constitute findings of this Commission.**
- 2. Project Description.** The applicant proposes to establish a bar use concurrent with an existing general entertainment use in order to seek a limited private club type 57 liquor license and type 58 catering permit from the California Department of Alcoholic Beverage Control. The subject building is an existing two-story over basement, 31 foot-tall, approximately 3,387 square foot commercial building. The subject tenant space is approximately 2,462 square feet and the proposed bar use would apply to the ground floor and the basement level. The tenant currently obtains temporary permits from the California Department of Alcoholic Beverage Control to serve alcohol during events.
- 3. Site Description and Present Use.** The Project is located on an approximately 2,687 square foot lot with a historic two-story over basement building. The property has 25 feet of street frontage along Market Street. The subject tenant, The Academy, has occupied the space since March of 2017. The general entertainment use (d.b.a. The Academy) conditionally operates as a social club on the basement and first floor. The outdoor activity area was constructed in spring 2018, which includes a 502 square foot ground-level patio with seating to accommodate a maximum of 40 patrons. The second level is separate from the general entertainment use and is occupied by the tenant's offices (d.b.a. The Academy). Overall, the existing two-story building possesses 3,387 square feet.

The club is membership based and any member of the public may become a member. Membership entails access to all events such as art shows, receptions, book clubs, game nights, limited live entertainment performances, drawing and discussion groups, and catered tastings. The tenant will continue to obtain the required permits from the Entertainment Commission and Police Department to host events involving live performances. The space is available to community organizations or private individuals to host meetings and gatherings when not in use by the proposed tenant. The tenant also offers barber services at the front of the space in about a 100 square foot area, providing an active, transparent storefront along Market Street. These services are provided by professional barbers who rent the booth and are open to customers with or without membership to The Academy.

- 4. Surrounding Properties and Neighborhood.** The Project Site is located within the upper Market Neighborhood Commercial Transit Zoning District in the Market Octavia Area Plan. The immediate context

is the vibrant Upper Market Street neighborhood which serves as the gateway to the Castro District and borders the Duboce Triangle neighborhood. The immediate neighborhood includes two and three-story mixed-use buildings with commercial uses at the ground-floor and residential uses above. Adjacent uses include general entertainment (d.b.a. The Swedish American Hall), eating and drinking uses, and mixed-use buildings with ground floor retail and hotels above. The rear of the subject property abuts a Public Zoning District (Station 6 of the San Francisco Fire Department) and two Residential Transit Oriented (RTO) Zoning District lots with residential uses.

5. **Public Outreach and Comments.** The Project sponsor provide one letter of support from the Castro Merchants. The project sponsor reached to Supervisor Mandelman's office and reached out to many neighborhood groups, including Castro Merchants, Eureka Valley Neighborhood Association (EVNA), Duboce Triangle Neighborhood Association (DTNA), and Castro CBD. The project sponsor also completed the ABC-207-E mailing to residences within 500 feet and points of consideration within 600 feet during the month of August 2020 required by the California Department of Alcoholic Beverage Control. The Department received one letter of opposition which came from the Homeowners Association for the property at 151-153 Sanchez Street which is the abutting residential parcel. The opposition to the Project is centered on concerns of noise within the conditionally permitted outdoor activity area. The letter states there is currently noise within this area and worries the addition of a permanent liquor license will add to the disruption.
6. **Planning Code Compliance.** The Commission finds that the Project is consistent with the relevant provisions of the Planning Code in the following manner:
  - A. **Use.** Planning Code Section 764 states that a Conditional Use Authorization is required for a Bar use, as defined by Planning Code Section 102.

*The proposed concurrent Bar use will allow the continuation of the existing General Entertainment use with a permanent liquor license. As defined by Planning Code Section 102, a General Entertainment use is not permitted to serve alcohol without a temporary liquor license. A bar Use must be established concurrent with an existing general entertainment use in order for the project sponsor to seek a limited private club type 57 liquor license and type 58 catering permit from the California Department of Alcoholic Beverage Control. Therefore, the Project requires a Conditional Use Authorization to establish a Bar Use.*
  - B. **Use Size.** Planning Code Sections 121.2 and 764 state that a Conditional Use Authorization is required for uses greater than 3,000 square feet.

*The tenant space is approximately 2,462 square feet in size and does not intend to expand at this time; thus, Conditional Use Authorization is not required for the use size.*
  - C. **Outdoor Activity.** Planning Code Section 710.24 states that a Conditional Use Authorization is required for an Outdoor Activity Area, as defined by Planning Code Section 790.70.

*An existing outdoor activity area is conditioned with the General Entertainment Use under Motion 20412. The Outdoor Activity Area, located in the rear yard, includes a 502 square foot ground-level patio with seating to accommodate a maximum of 40 patrons. The outdoor area would be used for entertainment use both day and night. Evening hours in the outside area would be restricted to 10p.m. daily to mitigate neighbors' concerns about potential noise.*

- D. **Hours of Operation.** Planning Code Section 764 states that a Conditional Use Authorization is required for maintaining hours of operation from 2 a.m. to 6 a.m., as defined by Planning Code Section 790.48.

*The hours of operation for the Bar and General Entertainment use are Wednesday and Thursday from 3 p.m. to 11 p.m. and Friday and Saturday from 3 p.m. to 1 a.m.*

*The barber shop will operate Monday through Friday from 11 a.m. to 7 p.m. and by appointment on Saturdays.*

- E. **Street Frontage in Neighborhood Commercial Districts.** Section 145.1 of the Planning Code requires that within NC Districts space for active uses shall be provided within the first 25 feet of building depth on the ground floor and 15 feet on floors above from any facade facing a street at least 30 feet in width. In addition, the floors of street-fronting interior spaces housing non-residential active uses and lobbies shall be as close as possible to the level of the adjacent sidewalk at the principal entrance to these spaces. Frontages with active uses that must be fenestrated with transparent windows and doorways for no less than 60 percent of the street frontage at the ground level and allow visibility to the inside of the building. The use of dark or mirrored glass shall not count towards the required transparent area. Any decorative railings or grillwork, other than wire mesh, which is placed in front of or behind ground floor windows, shall be at least 75 percent open to perpendicular view. Rolling or sliding security gates shall consist of open grillwork rather than solid material, so as to provide visual interest to pedestrians when the gates are closed, and to permit light to pass through mostly unobstructed. Gates, when both open and folded or rolled as well as the gate mechanism, shall be recessed within, or laid flush with, the building facade.

*The subject commercial space has approximately 25-feet of frontage on Market Street with approximately 16 feet 6 inches devoted to either the entrance or window space. The windows are clear and unobstructed. The barber shop retail service occupies this interior frontage space. There are no changes proposed to the commercial frontage.*

7. **Conditional Use Findings.** Planning Code Section 303 establishes criteria for the Planning Commission to consider when reviewing applications for Conditional Use authorization. On balance, the project complies with said criteria in that:

- A. The proposed new uses and building, at the size and intensity contemplated and at the proposed location, will provide a development that is necessary or desirable, and compatible with, the neighborhood or the community.

*The size of the existing use and proposed use is in keeping with other storefronts on the block face. The proposed concurrent bar use will not impact traffic or parking in the District because it is not a destination bar separate from the existing private social club (d.b.a. The Academy). A limited private club type 57 liquor license may only provide alcohol to the private club members. The proposed bar use concurrent with the existing general entertainment use will not impact traffic or parking in the District because it is not a destination site. This will complement the mix of goods and services currently available in the district and contribute to the economic vitality of the neighborhood by creating an active storefront.*

- B. The proposed project will not be detrimental to the health, safety, convenience or general welfare of persons residing or working in the vicinity. There are no features of the project that could be detrimental to the health, safety or convenience of those residing or working the area, in that:

- (1) Nature of proposed site, including its size and shape, and the proposed size, shape and arrangement of structures;

*The proposed Bar use will operate within the existing commercial space, and no expansion of the building envelope is proposed.*

- (2) The accessibility and traffic patterns for persons and vehicles, the type and volume of such traffic, and the adequacy of proposed off-street parking and loading;

*The Planning Code does not require parking or loading for an approximately 2,462 square-foot general entertainment use. The proposed use is designed to meet the needs of the immediate neighborhood and should not generate significant amounts of vehicular trips from the immediate neighborhood or citywide.*

- (3) The safeguards afforded to prevent noxious or offensive emissions such as noise, glare, dust and odor;

*The proposed use is subject to the standard conditions of approval for bar and outlined in Exhibit A.*

- (4) Treatment given, as appropriate, to such aspects as landscaping, screening, open spaces, parking and loading areas, service areas, lighting and signs;

*The proposed Bar use does not require any additional tenant improvements. The Department shall review all lighting and signs proposed for the new business in accordance with Condition 7 of Exhibit A.*

- C. That the use as proposed will comply with the applicable provisions of the Planning Code and will not adversely affect the General Plan.

*The Project complies with all relevant requirements and standards of the Planning Code and is consistent with objectives and policies of the General Plan as detailed below.*

- D. That the use as proposed would provide development that is in conformity with the purpose of the applicable Neighborhood Commercial District.

*The proposed project is consistent with the stated purpose of the NC Zoning Districts in that the intended use is located at the ground floor and will provide a compatible convenient service for the immediately surrounding neighborhoods and is in character with the commercial uses found within the Upper Market Neighborhood Commercial Transit District Zoning District. Ground floor-commercial space is required along Market Street and this Project will meet this requirement. In order to maintain continuous retail frontage and preserve a balanced mix of commercial uses, ground-story neighborhood-serving uses are encouraged and eating and drinking, entertainment, and financial service uses are limited. This Project proposes an entertainment use which requires a Conditional Use Authorization in order to ensure balance amongst neighborhood uses.*

8. **Planning Code Section 303(o)** establishes criteria for the Planning Commission to consider when reviewing applications for Eating and Drinking Uses. Such concentration should not exceed 25 percent of the total commercial frontage as measured in linear feet within the immediate area of the subject site. For the purposes of this Section of the Code, the immediate area shall be defined as all properties located within 300' of the subject property and also located within the same zoning district. On balance, the project does comply with said criteria in that:
- A. **Project Vicinity** There is approximately 2160.172 linear feet of commercial frontage within 300 feet of the project site. Approximately 334 linear feet or 15.4617% of this commercial frontage is comprised of eating and drinking establishments. The change of use to a bar will add approximately 25 linear feet, increasing the eating and drinking establishment percentage from 15.46% to 16.6% within 300 feet of the project site.
  - B. **Upper Market NCT** There is approximately 7,402.67 linear feet of commercial frontage within the Upper Market NCT. Approximately 1,575.3 linear feet or 21.62% of this commercial frontage is comprised of eating and drinking establishments. The change of use to a bar will add approximately 25 linear feet, increasing the eating and drinking establishment percentage from 21.62% to 21.96% within the Upper Market NCT.
9. **General Plan Compliance.** The Project is, on balance, consistent with the following Objectives and Policies of the General Plan:

**NEIGHBORHOOD COMMERCE**

**Objectives and Policies**

**OBJECTIVE 1**

**MANAGE ECONOMIC GROWTH AND CHANGE TO ENSURE ENHANCEMENT OF THE TOTAL CITY LIVING AND WORKING ENVIRONMENT**

Policy 1.1

Encourage development which provides substantial net benefits and minimizes undesirable consequences. Discourage development which has substantial undesirable consequences that cannot be mitigated.

Policy 1.2

Assure that all commercial and industrial uses meet minimum, reasonable performance standards.

*The proposed development will provide desirable goods and services to the neighborhood and will provide resident employment opportunities to those in the community. The expanded scope of the existing business will not result in undesirable consequences. Further, the Project Site is located within a Neighborhood Commercial District and is thus consistent with activities in the commercial land use plan.*

**OBJECTIVE 2**

**MAINTAIN AND ENHANCE A SOUND AND DIVERSE ECONOMIC BASE AND FISCAL STRUCTURE FOR THE CITY.**

Policy 2.1

Seek to retain existing commercial and industrial activity and to attract new such activity to the City.

*The Project will retain an existing commercial activity and will enhance the diverse economic base of the City.*

**OBJECTIVE 6**

**MAINTAIN AND STRENGTHEN VIABLE NEIGHBORHOOD COMMERCIAL AREAS EASILY ACCESSIBLE TO CITY RESIDENTS.**

Policy 6.1:

Ensure and encourage the retention and provision of neighborhood-serving goods and services in the city's neighborhood commercial districts, while recognizing and encouraging diversity among the districts.

*No commercial tenant would be displaced, and the project would not prevent the district from achieving optimal diversity in the types of goods and services available in the neighborhood.*

The following guidelines, in addition to others in this objective for neighborhood commercial districts, should be employed in the development of overall district zoning controls as well as in the review of individual permit applications, which require case-by-case review and City Planning Commission approval. Pertinent guidelines may be applied as conditions of approval of individual permit applications. In general, uses should be encouraged which meet the guidelines; conversely, uses should be discouraged which do not.

Eating and Drinking Establishments

Eating and drinking establishments include bars, sit-down restaurants, fast food restaurants, self-service restaurants, and take-out food. Associated uses, which can serve similar functions and create similar land

use impacts, include ice cream stores, bakeries and cookie stores. Guidelines for eating and drinking establishments are needed to achieve the following purposes:

- Regulate the distribution and proliferation of eating and drinking establishments, especially in districts experiencing increased commercial activity;
- Control nuisances associated with their proliferation;
- Preserve storefronts for other types of local-serving businesses; and
- Maintain a balanced mix of commercial goods and services.
- The regulation of eating and drinking establishments should consider the following:
  - Balance of retail sales and services;
  - Current inventory and composition of eating and drinking establishments;
  - Total occupied commercial linear frontage, relative to the total district frontage;
  - Uses on surrounding properties;
  - Available parking facilities, both existing and proposed;
  - Existing traffic and parking congestion; and
  - Potential impacts on the surrounding community.

*There is a concern with the potential over-concentration of food-service establishments. The Commerce and Industry Element of the General Plan contains Guidelines for Specific Uses. For eating and drinking establishments, the Guidelines state, "the balance of commercial uses may be threatened when eating and drinking establishments occupy more than 20% of the total occupied commercial frontage." Planning staff verified the site survey of the Upper Market NCT which contains the proposed building. With the proposed bar use, approximately 21.96% of the frontage of this Zoning District is attributed to eating and drinking establishments.*

#### Policy 6.2

Promote economically vital neighborhood commercial districts which foster small business enterprises and entrepreneurship, and which are responsive to the economic and technological innovation in the marketplace and society.

*An independent entrepreneur is sponsoring the proposal. This is not a Formula Retail use.*

#### Policy 6.8

Preserve historically and/or architecturally important buildings or groups of buildings in neighborhood commercial districts.

*The Project will provide a unique service well suited for the diverse Upper Market Street / Castro neighborhoods. No commercial tenant would be displaced with the addition of the Bar use, and the Project would not prevent the District from achieving optimal diversity in the types of goods and services available in the neighborhood.*

**MARKET OCTAVIA AREA PLAN**

**BUILDING WITH A SENSE OF PLACE**

**Objectives and Policies**

**OBJECTIVE 1.1**

**CREATE A LAND USE PLAN THAT EMBRACES THE MARKET AND OCTAVIA NEIGHBORHOOD'S POTENTIAL AS A MIXED-USE URBAN NEIGHBORHOOD.**

Policy 1.1.7

Encourage the creation of space dedicated to community services on Market Street within the Upper Market NCT.

Policy 1.1.8

Reinforce continuous retail activities on Market, Church, and Hayes Streets, as well as on Van Ness Avenue.

*The Project will provide an active, diverse use along Market Street and will make its space available to community groups and private individuals. The concurrent bar use will allow the continuation of the existing use with a permanent liquor license.*

**OBJECTIVE 3.2**

**PROMOTE THE PRESERVATION OF NOTABLE HISTORIC LANDMARKS, INDIVIDUAL HISTORIC BUILDINGS, AND FEATURES THAT HELP TO PROVIDE CONTINUITY WITH THE PAST.**

Policy 3.2.1

Preserve landmark and other buildings of historic value as invaluable neighborhood assets.

Policy 3.2.2

Encourage rehabilitation and adaptive reuse of historic buildings and resources.

Policy 3.2.5

Preserve resources in identified historic districts.

The Project will preserve an active historic storefront along the vibrant Market Street corridor.

**10. Planning Code Section 101.1(b)** establishes eight priority-planning policies and requires review of permits for consistency with said policies. On balance, the project complies with said policies in that:

- A. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses be enhanced.

*The proposal would enhance the district by providing a bar use concurrent with an existing general entertainment use in an area that is not over concentrated by eating and drinking establishments. The business is locally owned and there is potential to create a few employment opportunities for the community in the future. The general entertainment use enhances the nearby neighborhood-*

*serving retail uses by providing additional customers, who may patron these businesses.*

- B. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.

*The Project site does not contain any residential units. The Project will utilize an existing storefront and commercial space which has existed at the subject location for many years. No residential units will be lost and no exterior modifications to the building will be made. The proposal includes extending hours of operation yet restricts the use of the outside area to 10pm so as to mitigate noise concerns.*

- C. That the City's supply of affordable housing be preserved and enhanced.

*No housing is removed for this Project.*

- D. That commuter traffic does not impede MUNI transit service or overburden our streets or neighborhood parking.

*The Project Site is well served by nearby public transportation options. The Project is located along the Market Street transit corridor which services the F, J, K, T, L, M, N, and S Muni lines. Future customers and members would be afforded proximity to multiple transit lines. The Project also provides sufficient bicycle parking for members and their guests.*

- E. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced.

*The Project does not include commercial office development.*

- F. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.

*The Project will not impact the property's ability to withstand an earthquake and will be designed and constructed to conform to the structural and seismic safety requirements of the City Building Code.*

- G. That landmarks and historic buildings be preserved.

*The Project will preserve a historic resource and continue to activate the space.*

- H. That our parks and open space and their access to sunlight and vistas be protected from development.

*The Project will not affect any surrounding open space or parks and will maintain the existing unobstructed rear yard.*

11. The Project is consistent with and would promote the general and specific purposes of the Code provided under Section 101.1(b) in that, as designed, the Project would contribute to the character and stability of the neighborhood and would constitute a beneficial development.
12. The Commission hereby finds that approval of the Conditional Use would promote the health, safety and welfare of the City.
