1 2	[Approve Project List - California Senate Bill 1 Local Streets and Road Program - Road Maintenance and Rehabilitation Account Funds]
3	Resolution approving the list of projects to be funded by Fiscal Year 2021-2022 Road
4	Maintenance and Rehabilitation Account funds as established by California Senate Bill
5	1, the Road Repair and Accountability Act of 2017.
6	
7	WHEREAS, Senate Bill 1 (herein referred to as SB 1), the Road Repair and
8	Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the California
9	Legislature and signed into law by the Governor of California in April 2017 to address the
10	significant multi-modal transportation funding shortfalls statewide; and
11	WHEREAS, SB 1 includes accountability and transparency provisions that will ensure
12	the residents of the City and County of San Francisco are aware of the projects proposed for
13	funding and which projects have been completed each fiscal year; and
14	WHEREAS, The City and County of San Francisco must adopt by resolution a list of
15	projects proposed to receive fiscal year funding from the Road Maintenance and
16	Rehabilitation Account (herein referred to as RMRA), created by SB 1, which must include a
17	description and the location of each proposed project, a proposed schedule for the project's
18	completion, and the estimated useful life of the improvement; and
19	WHEREAS, The California Transportation Commission has requested to receive San
20	Francisco's Board approved RMRA funded project list for Fiscal Year 2021-2022 by July 1,
21	2021; and
22	WHEREAS, The City and County of San Francisco will receive an estimated \$26.4
23	million in RMRA funding in Fiscal Year 2021-2022 from SB 1; and
24	WHEREAS, This is the fifth year in which the City and County of San Francisco is
25	receiving SB 1 funding and will enable the City and County of San Francisco to continue

essential road maintenance and rehabilitation projects that would not have otherwise been
 possible without SB 1; and

WHEREAS, The City and County of San Francisco used a Pavement Management
System to develop the SB 1 project list to ensure revenues are being used on the highest
priority and cost-effective projects that also meet community priorities for transportation
investment; and

7 WHEREAS, Project selection criteria include public inquiries, Pavement Condition
8 Index scores, multi-modal routes, project readiness, geographic equity, and funding
9 availability; and

10 WHEREAS, The 2018 California Statewide Local Streets and Roads Needs 11 Assessment found that the City and County of San Francisco streets and roads are in a good 12 condition and this revenue will help us increase the overall quality of our road system and 13 over the next decade will maintain our streets and roads in good condition; and 14 WHEREAS, Fiscal Year 2021-2022 funding from SB 1 will help the City and County of 15 San Francisco maintain and rehabilitate 319 blocks throughout San Francisco; and 16 WHEREAS, SB 1 RMRA is one funding source among multiple within the San 17 Francisco Public Works Street Resurfacing Program (herein referred to as Street 18 Resurfacing); and 19 WHEREAS, If non-RMRA funding continues at levels established by the 2011 Road 20 Repaying and Street Safety General Obligation Bond, Street Resurfacing will be able to 21 resurface, repair, and rehabilitate approximately 500 additional blocks each year; and 22 WHEREAS, All Street Resurfacing project candidates are subject to substitution and 23 schedule changes pending available funding, visual confirmation, utility clearances with other 24 agencies and are not guaranteed to be moved forward to construction; and

25

WHEREAS, Unforeseen challenges such as increased work scope, changing priorities,
 cost increases, or declining revenue may arise causing Street Resurfacing to postpone or
 drop candidates from consideration; and

WHEREAS, Without revenue from SB 1, the City and County of San Francisco would
have to reduce its annual pavement workload, causing the quality of San Francisco's road
network to deteriorate and the City's average Pavement Index Condition score to drop; and
WHEREAS, Maintaining and preserving the local street and road system will reduce
drive times and traffic congestion, improve bicycle safety, and make the pedestrian
experience safer and more appealing, which leads to a reduction in vehicle emissions, helping
California achieve its air quality and greenhouse gas emissions reduction goals; and

WHEREAS, Restoring roads before they fail is more cost effective and reduces
 construction time, as well as reduces air pollution from heavy equipment and water pollution
 from site run-off; and

WHEREAS, The SB 1 project list and overall investment in our local streets and roads
infrastructure, with a focus on basic maintenance and safety, investing in complete streets
infrastructure, and using cutting edge technology, materials, and practices, will have
significant positive co-benefits statewide; now, therefore, be it

18 RESOLVED, That the foregoing recitals are true and correct; and, be it

19 FURTHER RESOLVED, The following list of planned projects will be funded in-part or

DATE:	June 17, 2021

Dear President Walton and Board Colleagues,

The Special Land Use and Transportation Committee meeting scheduled for tomorrow, Friday, June 18, 2021 is cancelled to observe Juneteenth as declared by Mayor London Breed. Due to the time-sensitive nature of pending items, a Special Land Use and Transportation Committee will be scheduled on **Monday**, June 21, 2021 at 9:00am with the following agenda:

File No. 210527	Approve Project List - California Senate Bill 1 Local Streets and Road Program - Road Maintenance and Rehabilitation Account Funds*
File No. 210601	Administrative Code - COVID-19 Tenant Protections* Sponsors: Preston; Walton, Ronen and Chan

*The Committee may refer these items to the full Board as Committee Reports for consideration on Tuesday, June 22, 2021.

Thank you for your attention. I want to especially thank the staff of the Clerk's office and SFGovTV for accommodating.

Senate Bill 1 Road Maintenance and Rehabilitation Account

In April 2017, Governor of California Jerry Brown signed Senate Bill 1, the Road Repair and Accountability Act of 2017 (SB1), which through tax and fee increases, will raise over \$5 billion annually in new transportation revenues for the State of California.

\$1.5 billion of the total annual SB1 revenue is earmarked for local streets and roads maintenance and rehabilitation in the Road Maintenance and Rehabilitation Account (RMRA). California's counties and cities receive an annual share from RMRA.

On January 20, 2021, California State Association of Counties (CSAC) released San Francisco's Fiscal Year 2021-22 county and city share. San Francisco is estimated to receive \$26.4 million in Fiscal Year 2021-22. Prior to receiving an apportionment of Road Maintenance and Rehabilitation Account (RMRA) funds from the California State Controller, San Francisco must identify and approve which projects will receive RMRA funds. San Francisco Public Works' Street Resurfacing program has identified six (6) projects to receive RMRA funding next fiscal year:

- 1. Various Locations Pavement Renovation No 57
- 2. Various Locations Pavement Renovation No 58
- 3. Various Locations Pavement Renovation No 59
- 4. Various Locations Pavement Renovation No 60
- 5. Various Locations Pavement Renovation No 61
- 6. FY21-22 Citywide Pavement Preservation
