Pursuant to Charter, Sections 2.103 and 3.100(7), and Administrative Code, Section 2.11, the Mayor shall discuss the following eligible topic submitted from the Supervisor representing District 1. The Mayor may address the Board initially for up to five minutes. Discussion shall not exceed two minutes per question or answer.

1. The future of road measures put in place during the pandemic, including in Golden Gate Park, the Great Highway, and Slow Streets (District 1)

Mayor London N. Breed addressed the Board of Supervisors regarding the current COVID-19 health crisis, including the need for additional testing, adherence to testing for health workers, dissemination of protective equipment to schools, and the continued work being done by all City departments. Mayor Breed then discussed the above referenced topics submitted by the District 1 Supervisor. Supervisor Chan began the discussions by asking the following question: What do you envision for the future of JFK Drive, the Great Highway and the Slow Streets Program? Mayor Breed responded that the initial closures were done to accommodate the needs during the pandemic and City staff is currently undergoing an analysis to propose a long-term plan for the Great Highway and the Slow Streets Program. Supervisor Chan then followed up with the following question: Do you think City departments are actually behind held accountable, and are they providing transparency with an honest, data-driven, and decision-making process? Do you share my vision for a compromise between stakeholders and my demands to hold City departments accountable to a transparent decision making process? Mayor Breed responded that the process is transparent and both sides of the issue have provided their feedback, but no decisions have been made since City departments are still in the process of gathering data. Mayor Breed did not ask any follow-up questions related to this topic. Following public comment this matter was filed. No further action was taken.
